

Annabelle Mullin

Graphic Designer

I'm a graphic design student at Wake Technical Community College with a strong interest in branding and print design, including magazine layouts, posters, flyers, and social media graphics. I enjoy solving problems through thoughtful, creative design and creating visuals that are both engaging and intentional.

Eager to learn and grow, I enjoy every stage of the design process, from brainstorming ideas to refining final designs. I'd love the opportunity to work with your team and contribute my skills. You can view my work and photography through my links.
